

Glass Splashback Colours Choice

These colours are a reasonable representation of the standard Easy Glass Splashbacks colours, but will look different from one screen to another. Free glass samples are available on request, by completing our [contact page](#). Easy Glass Splashbacks can also mix virtually any colour, but there will be a small charge for glass samples of non-standard Easy Glass Splashbacks colours. Please see our [Price & Buy page](#) on our website, www.easyglassplashbacks.co.uk.

Colour comparison

Easy Glass Splashbacks uses the clearest flat glass available in the world for its colours, but please be aware that White and other Light Coloured Glass Splashbacks will still be influenced by the slight inherent tint of the glass. Nothing can be done about this, and the same will apply to Glass Splashbacks from ANY supplier. Indeed few glass splashback companies are able to buy their glass in sufficient quantity to import the very best ultra clear glass, which is not otherwise available in the UK. Please see the pictures left which demonstrate the effect of the glass on very light colours. As the colours darken, the effect of the tint of the glass becomes negligible.

To put this effect into context you may like to look at the white glass walls in the photo above. We will also gladly send you actual glass samples. Just request glass samples by completing the [contact page](#) on our website, www.easyglassplashbacks.co.uk.
